“ We would like to extend our condolences to the family. In just a little while all of the pain and sorrow that we feel from the death of our love ones will cease and be replaced with joy, because the former things have passed away.

“ There are just so many memories of you that I can't think of just one and I know that if I list them all I won't leave room for others to share their memories of you. However, I will say thank you for choosing me to be your baby sister, for being there for me when I was a kid, and for being there through my hard times as an adult. Thank you for letting me be apart of your life journey. Thank you for being a great Uncle to Jay. He and I both are going to miss you too pieces.
